

code/software/simpler
_circular_buffer.hpp

```
graph TD; A["code/software/simpler_circular_buffer.hpp"] --> B["cstddef"]; A --> C["iostream"];
```

The diagram illustrates the dependencies of the file `code/software/simpler_circular_buffer.hpp`. It is represented as a root node in a gray box at the top. Two blue arrows point downwards from this root node to two child nodes, `cstddef` and `iostream`, which are shown in white boxes with gray borders.

cstddef
